## CONGRESS 2023

The **10th Edition of ICCMA Congress 2023** will be held this year at **India Expo Mart, Greater Noida, Delhi-NCR** from **28th to 30th September 2023**.

Last year witnessed a gradual return to normalcy post covid disruption. Indian Government's deft handling of monetary & fiscal policies ensured that Indian economy is not impacted much by international recessionary headwinds. Digital innovation combined with an improving regulatory & legal framework has put the nation's economy on a path of 6% or so annualised growth, among the fastest of the world's large economies. Geo-political tensions still persist & resultant impact on energy & commodity prices has still not faded..

Various reforms & growth drivers are propelling the economy to honourable Prime Minister's vision of US\$ 5 trillion in couple of years.

With this backdrop it is very important that we all act responsibly by evaluating and taking considered capital investment decisions keeping in focus demand & supply dynamics.

The chosen theme hence for **ICCMA Congress 2023** is **OPTIMIZING CAPACITY UTILIZATION STRATEGIES**. Eminent thought leaders from across the country shall be sharing their views and expertise on the relevant topics.

**INDIACORR EXPO 2023** is concurrently being organized by **Reed Exhibitions (P) Ltd.** (Organisers of Sino Corrugated in China) from 28-30th September 2023 at the same venue. Delegates/Sponsors will be getting a dual benefit of attending the **ICCMA Congress 2023** as well as the **INDIACORR EXPO 2023**, the exhibition. This is India's biggest and the only focused exhibition for the Corrugated Packaging Industry.

**We look forward to meeting you at ICCMA Congress 2023.**

### ABOUT ICCMA

Indian Corrugated Case Manufacturers Association - ICCMA was established in 2009 to bring together all progressive box makers in India, on a single platform, to discuss, interact and chalk out plans for the growth of the industry. It has been established to address the issues faced by the corrugated box units having automatic corrugating production lines. Its' mission is to provide its members those services and facilities which would promote the optimal packaging solutions to the consumers.

ICCMA aspires to act as a catalyst for the growth of the corrugated packaging industry by interacting closely with the Government of India and the other State Governments for the formulation of policies, conducting various seminars and workshops, organizing buyer-seller meets, participating in national and international conferences, organising exhibitions and engaging in continuous improvements through R&D.

The Pan India membership strength of ICCMA is currently over 220 and the market share of all these automatic units is approximately 40% of the total production of corrugated packaging in the country, with the latest state-of-the art technology.

### TEAM ICCMA brings its combined strength to the table for the benefit of all stakeholders.
